DiningOut's Places to Try This Month

-LOCKWOOD

An oasis of contemporary style in Chicago history. In this setting, guests are taken away from the mundane and can experience the finest in dining, wine, and service. Heralded as a rising star, Chef Phillip Foss prepares his cuisine with an artisan's care, thought, and understanding. Chef Foss, who has trained with Michelin-starred chefs and served as Sous Chef at the eponymous Le Cirque Restaurant in New York City, vows that Lockwood "will not rest on our laurels and prior accolades" and will strive to continuously redefine culinary boundaries. "Much goes into the development of dishes-beyond the flavors, aromas, textures and presentations-we go through great lengths to bring in the finest quality ingredients raised or grown by artisans who care for their craft as we care for ours." Lockwood is a bright light in the newly renovated, historic Palmer House.
